SELECTION AND AWARD CRITERIA

10. Selection criteria

Capacity-providing entities

An economic operator (i.e. candidate or tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document.** Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

Economic and financial capacity (based on item 3 of the request to participate form, or on item 3 of supply tender form). In case of candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

- the average annual turnover of the tenderer must exceed or be equal to the contract value of the tender (per lot)
- Tenderers must have a bank account that can receive payments in euro from outside Libya
- Power of attorney and Bank form information: Transfers will be done only to the company's bank account or to his/her legal representative

2) Professional capacity (based on items 4 and 5 of the request to participate form for service contracts and on items 4 and 5 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years preceding the submission deadline.

- has a professional certificate appropriate to this contract, such as certificate from Ministry of Health to operate with health facilities
- Tenderer has sufficient ongoing staff resources, expertise and experience

to be able to handle the proposed contract in the area

- information on the educational and professional qualifications, skills, experience and expertise of the persons responsible for performance including a reference to the technicians or technical bodies available to the economic operator, whether or not belonging directly to it, especially those responsible for drugs/medical equipment quality control;

- 3) Technical capacity** (based on items 5 and 6 of the request to participate form for service contracts and on items 5 and 6 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years from submission deadline.

The candidate has provided services or supplies under at least <2> contracts in <health drugs /medical equipment supply, same budget per lot > which were implemented at any moment during the reference period: < 3 years>.

This means that the contract the candidate refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.
